

SPECIALIST KNOWLEDGE THAT CREATES CONFIDENCE

Let's talk about
Engineering Insurance

Plant, production, printing, civil, industrial, mechanical or chemical engineering
- the worlds of production and engineering are complex.

At Econorisk, we are able to offer specialised cover and solutions for the Engineering and Manufacturing industries, where risk is ever present and varied in its forms.

In these complex environments, you need a business partner that will proactively approach your risk and mitigate the impact of the many scenarios that could go wrong. At Econorisk, we have the experience in identifying, managing and controlling these risks, through thorough risk management consultation, backed by the comprehensive solutions offered by our leading insurance providers.

We offer a complete engineering insurance solution, catering from contractors cover to machinery, stock and everything in between. Contact us and one of our team of Engineering specialists will lay the risk management foundation required on which to build your commercial enterprise and maintain your insurability.

SOME OF THE COVERS AVAILABLE:

Contractors All Risk	Provide cover to protect the employer and contractor against the risk associated with construction, including damage to property and third-party injury or damage claims.
Machinery Breakdown	Provides cover for machinery which breaks down whilst in use or at rest. In respect of fridges, freezers and cold rooms, deterioration of stock can also be selected as an insured section.
Deterioration of Stock	Provides cover for stock which deteriorates as a result of machinery breakdown.
Loss of Profits	Cover may be extended to include loss of profits to protect the insured against loss in respect of business interruption.
Plant All Risks	Cover provided for accidental physical damage to the plant.
Works Damage	Provides cover against accidental or physical loss or damage to property. Cover may include insurance for plant and machinery belonging to the customer, as well as for property being manufactured or worked on.
